**Provision for Improvement**

## **INSTITUTIONAL PROVISION FOR IMPROVEMENT IN INTERNAL EVALUATION**

Manohar Memorial College of Education places a strong emphasis on ensuring that its internal evaluation processes are transparent, robust, and time-bound, aiming to uphold academic integrity and foster continuous improvement among its students. The college has implemented several provisions to achieve these objectives effectively.

Firstly, the college has established clear and well-defined assessment criteria for all courses and subjects. These criteria are communicated to both students and faculty members at the beginning of each academic term, ensuring transparency from the outset. By outlining expectations and standards, students understand what is required of them, promoting fairness in evaluation.

Secondly, to maintain robustness in assessment, the college employs a variety of evaluation methods. These include regular quizzes, assignments, presentations, and examinations, which are designed to assess different aspects of student learning comprehensively. This diversified approach helps in obtaining a holistic view of each student's academic progress and capabilities.

Moreover, the college ensures that the evaluation process is time-bound by adhering strictly to pre-determined schedules for assessments and result announcements. This punctuality not only provides clarity to students but also instills discipline and accountability in the academic calendar.

In terms of transparency, the college promotes openness by allowing students access to their graded assignments and examination papers for review and feedback purposes. This transparency fosters trust and enables students to understand their strengths and areas needing improvement.

## **INSTITUTIONAL PROVISION FOR BILINGUAL ANSWERING**

Manohar Memorial College values linguistic diversity and effective communication across languages, enhancing student learning through a provision for bilingual answering in examinations and assessments. Firstly, students have the option to respond to exam questions in either English or their preferred regional language, ensuring they can demonstrate their understanding without language acting as a barrier.

Secondly, faculty is trained to provide study materials like guides, notes, and assignments in both English and the predominant regional language. This approach fosters engagement and understanding among all students, regardless of their language of instruction.

Administratively, the college ensures all communications, notices, and academic policies are accessible in both English and the regional language, promoting clarity and inclusivity.

During exams, special accommodations are available for students needing language assistance, such as bilingual dictionaries or additional time to articulate answers effectively.

Regular feedback from students and faculty helps refine these bilingual provisions, ensuring they effectively support learning outcomes and provide equitable opportunities for academic achievement.
